It may be of interest to the voters to know that we paid out of our dance funds \$110.40 on the Nichols fire.

We are in need of about 300 feet more hose so that we may reach all parts of the Village.

The Fire Department would appreciate your cooperation when our article comes up in the Town Warrant to appropriate the money we are asking for.

## Fire Warden's Report

Every good and prudent citizen must know something about fire prevention and should remember the following rules.

1. That permission to burn in or near woodland or where fire may be communicated to woodland must be secured from the forest fire warden when the ground is not covered with snow.

2. To be careful when smoking in or near the woods and not to throw or drop lighted cigars, cigarettes or matches.

3. To notify your local fire warden promptly of any fire you see.

4. That fire prevention is the best and cheapest fire insurance.

5. To be fire minded; be careful; be cooperative and thus help your warden prevent forest fires. This is patriotism at work.

The 1946 fire record for our town follows:—

Number of fires or investigations	4
Number of permits issued	58

Further detail data available upon request.

BURT G. MORGAN, Forest Fire Warden

## Report of the Superintendent of Schools

---

To the Springfield Board:

I herewith submit the annual report of the Superintendent of Schools.

### School Building

Notwithstanding the generous and unanimous support given to the building project at both the town and district meetings last March, it was not possible to erect a building within the limits of our appropriation (\$20,000.00). Accordingly action had to be postponed until we could secure passage of an enabling act at the 1947 session of the state legislature to permit the school district to borrow additional funds. Under present conditions it will be necessary to spend about \$30,000.00 for a two-room building.

The original plans have been scaled down to decrease the cost. Two work rooms and a teacher-nurse room were omitted; the toilets and wardrobes have been removed from the first floor to the basement; and the basement has two rooms instead of one large space. The revised plan will, however, give us a building about 72 feet by 24 feet, containing two standard class-rooms (each 22' 2" x 32' 4") accommodating easily 70 pupils. There are closets for books and supplies and there is a large storage room in the basement. The building will be heated by a furnace in the basement. These new accommodations will be most welcome and helpful. Present rooms are seriously overcrowded.

There are this year 69 pupils in Springfield schools, including eleven children from Grafton. There are likely to be even more pupils next year. It is therefore absolutely necessary to have more room. Our problem in school accommodations will be solved by the construction of the new building.

The School Board and citizens of Springfield are very grateful to Mr. Wilson B. Wood who has so generously donated a tract of land on the New London Highway as a site for the new school. There will be a sizeable playground for the children.

The Building Committee, as enlarged last March, now consists of the School Board, Arthur H. Metcalf, Justin Nichols, Mrs. Yvonne Kezar, and the following representatives of our summer residents: Mrs. Marion H. Kazanjian, Mrs. Mildred Downey, and George A. Sacks.

The architect is Mr. Archer Hudson of Hanover.

When we occupy our new building, it will be necessary to transport the Maxfield pupils to the center. We can share the expense of the transportation with the Grafton School District,

assuming that the Grafton children will still want to attend our school. Indeed here is no other school which they can readily attend. Grafton contributes about one thousand dollars a year toward the operation of the Maxfield School. The new school plant, with two teachers instead of three, will cost less to operate.

The Federal Works Agency has granted us a loan of \$1600.00 for securing plans for the new building. Half of this sum has already been paid. The remainder will be paid upon final completion of plans and determination of actual costs. If the project is voted and started this loan will have to be repaid without interest.

We wish to thank Mr. and Mrs. Fairfax Downey for another of his interesting books entitled "Cavalry Mount," presented in memory of their son, Fairfax Davis Downey, Jr.

### **Teachers' Salaries**

It has long been known that teachers have been underpaid in comparison with other workers but not much has been done about it until this year. Teachers, as well as their friends and the general public, have campaigned to remedy this situation. Many teachers have left the profession for more lucrative employment. Worst of all very few are now preparing to fill vacancies in the corps of teachers. So there is an alarming shortage of qualified teachers. Since the teacher is the focal point of our system of education and successful operation of our schools is seriously threatened. Salaries are being advanced all over the country. The teachers deserve this raise. The greatest benefit from salary increases will be the inducement offered to young people to enter the teaching profession. In no other way can our schools carry on their work.

### **Budget for 1947-1948**

The amount of teachers' salaries is, of course, greater than that of the current year under present conditions. Even this amount may have to be increased.

Almost every item of expense has gone up during the past few months. Books and supplies have jumped 30 to 50%.

We happen to have a large number of tuition pupils, both elementary and high school. Next year we expect to have nine elementary tuition pupils in Sunapee and New London. We may have 14 pupils in various high schools.

I want to express my personal appreciation to the teachers who have faithfully stood by to keep the schools in operation and to all others who have supported our educational program.

Respectfully submitted,

ALFRED W. SMITH,  
Superintendent of Schools.
